ADVANTAGES &&DISADVANTAGES OF LATEX

❖ ADVANTAGES:

1. Professional typesetting.
2. It is the standard for scientific documents.
3. Meaning based structuring (rather than appearance).
4. Knowledgeable and helpful user group.
5. Platform independent.
6. Its FREE!
7. Users only need to learn a few easy-to-understand commands that specify the logical structure of a document. They almost never need to tinker with the actual layout of the document.
8. Even complex structures such as footnotes, references, table of contents, and bibliographies can be generated easily.
9. LATEX encourages authors to write well-structured texts, because this is how LATEX works—by specifying structure.

❖ **DISADVANTAGES:**

1. “Hard to write disorganized documents”*
2. Learning Curve.
3. Customizing is tedious.
